

TOP TIP

IT IS GOOD PRACTICE TO COLOUR CODE YOUR CLEANING EQUIPMENT ACCORDING TO THE VARIOUS AREAS WITHIN YOUR ORGANISATION/VENUE SO AS TO PREVENT CROSS CONTAMINATION.

GENERAL AREAS ■
WASHROOMS ■
KITCHENS ■
CLINICAL ■

HEAVY DUTY FLOOR CLEANING

PRODUCTS REQUIRED:

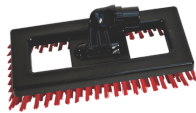

BUCKET & WRINGER

- CODE:
■ 025.111
■ 025.112
■ 025.113
■ 025.114

- CODE:
■ 024.102
■ 024.103
■ 024.104
■ 024.105

INTERCHANGE DECK SCRUBBER

- CODE:
■ 003.507
■ 003.506

INTERCHANGE PAL-O-MINE

- CODE: 029.108 ■
029.109 ■

INTERCHANGE RUBBER FLOOR SQUEEGEE

- CODE:
■ 025.312 (18")
■ 025.310 (18")

PAL-O-MINE SPONGE

- CODE: 029.110

CAUTION SIGN

- CODE:
025.405

MERLIN C09 HD DEGREASER, 5L

- CODE:
019.001

INTERCHANGE MOP HANDLE CODE: 025.220

STEP 1.

- Fill **Bucket** to maximum fill mark and then add **Merlin C09 Heavy Duty Degreaser**.
- Place **Caution Wet Floor** sign out.
- Attach **Mop Head** to **Mop Handle**.
- Place **Mop** into your **Bucket** with the **Cleaning Solution**. Do not wring out the mop.

STEP 2.

- Using the **Wet Mop**, wet the area to be scrubbed. Charge/Soak the Mop every 2 m².
- Replace the **Mop Head** with the **Deck Scrubber**.
- Scrub the wet floor surface vigorously.
- If required, 'flip' the **Deck Scrubber** vertically to clean the skirting and/or step upright.

STEP 3.

- Replace the **Deck Scrubber** with the **Mop Head**.
- Wring the **Mop Head** out.
- Mop over the area that has been scrubbed to remove excess water/residue.

STEP 4.

- Replace the **Mop Head** with the **Rubber Squeegee**.
- Place **Rubber Squeegee** on the floor at a comfortable arms length away from you.
- Apply some downward pressure and pull the **Rubber Squeegee** along the floor toward your feet.
- Sharply tap the **Rubber Squeegee** at your feet to remove excess water/residue before repeating.
- Repeat the Pull & Tap process, overlapping on each pull.
- NOTE: You should be collecting a pool of water/residue at your feet.
- Once all water has been collected, replace the **Rubber Squeegee** with the **Mop Head**.
- Use the **Mop Head** to remove the collected water/residue from the floor.

STEP 5.

- Once all the water/residue has been removed and the floor is dry, remove the **Caution Sign**.
- Clean all equipment and ensure proper drying.
- Safely store away equipment.
